

# ZFS-105000 SERIES LED FLEX

BRILLIANT LIGHT

EFFORTLESS INSTALLATION

ENDLESS POSSIBILITIES

Bring your projects to life with the **ZFS-105000 Series LED Flex Tape**—a versatile, high-performance lighting solution engineered for displays, cabinets, accents, and architectural details. At just 3.28 feet per strip with an **integrated 1.6-foot power cord and barrel connector**, this flex tape delivers powerful illumination with plug-and-play simplicity.

## Effortless Setup

Each LED Flex Strip comes equipped with:

- **Strong adhesive backing** for fast, tool-free installation
- A pre-attached **barrel connector** for easy pairing with standard LED wall power supplies
- **Clearly marked cut lines** so you can trim the tape to the exact length needed

Just cut, peel, stick and power up—lighting has never been easier.

## Performance You Can See

The ZFS-105000 Series offers:

- **Three shades of white** to match your environment or design vision
- **12V or 24V options** to suit different system requirements
- **High Brightness or Ultra High Brightness (High-Density)** models
- **Up to 140 lumens per watt** for exceptional energy efficiency
- Compatibility with standard barrel connectors and accessories

Whether you're creating clean architectural highlights or vibrant retail displays, the ZFS-105000 delivers crisp, consistent illumination every time.

## Flexible for Any Application

Designed for versatility, the slim, bendable profile makes this flex tape ideal for:

- Industrial lighting
- Cabinet lighting
- Display cases
- Coves and architectural accents
- DIY and custom lighting projects

Wherever you need light, the ZFS-105000 Series fits—and shines.
