

JKL's REACH STATEMENT

This statement is intended to communicate the classification of JKL products under the European Union's Regulation 1907/2006, REACH Directive that came into force June 1, 2007 with the latest list having been published 19 January 2021, currently having 211 Substances of Very High Concern. The list of Substances of Very High Concern (SVHC) can be found on the ECHA website: <https://echa.europa.eu/candidate-list-table>

The lighting products and accessories supplied by JKL Components Corporation are considered "Articles" as defined by the REACH Directive. JKL has verified substances within our products and can confirm that the articles supplied do not contain (SVHC) Substance of Very High Concern in amounts that warrant notification. In summary, our products do not require registration under the Directive.

Note: This statement is based on information from sources which we believe to be accurate. Product users are responsible for determining the applicability of REACH and other environmental regulations based on their individual use of the final product.

Sherry Newton
Vice President
JKL Components Corporation
